## IVORY SOAP

99 1/4% PURE

High priced toilet soaps cost more than the Ivory, not because the soap itself is any better, but by reason of the expensive wrappings, boxes and perfume. Then the profit on toilet soaps is much greater.

## HAS NEVER ONCE FAILED!

Paine's Celery Compound Gave Mrs. Porter Back Her Strength.

These sharp, raw, capricious days of February are blamed for much sickness that is simply the direct result of nervous weakness.

Perfect health will keep one above any depressing influence from the weather.

Pure, richer blood and better-fed nervous tissues will make people feel well even in February.

During his many years of hard and wonderful work, Prof. Edward E. Phelps, Dartmouth's great professor, had in mind the thousands who were weak and run-down. His study of the many cases of nervous prostration, neuralgia, rheumatism, dyspepsia and debility led him to that most marvelous discovery of the century, Paine's celery compound.

In every city, as well as the smaller villages scattered through this country, are men and women who for years have relied upon Paine's celery compound whenever they found them-

selves weak and out of health. Hundreds of letters like the following from Mrs. Porter of New York city, tell how this great medicine has kept them well and strong:

NEW YORK, Jan. 3, 1896.

MESSRS. WELLS & RICHARDSON CO.,

Dear Sirs:—For several years I have used your Paine's celery compound whenever I found myself running down in health. During that time I have recommended it frequently to my friends and I know of many persons who have been much benefited by it. I am never without a bottle of it in the house, and take great pleasure in expressing to you my belief that it does a great work for humanity.

Mrs. M. PORTER, 282 Eighth Ave.

Mrs. Porter's experience is like thousands of others. Paine's celery compound made her well, because it fed the starved nerves and blood and regulated their functions. Try it and be convinced of its remarkable power to cure disease.

## HOW MEN BECOME MILLIONAIRES.

"Own Home Wheat Every Day Until July."

European importing countries have one-half in store of their regular supplies. Weekly imports are two millions a week short of requirements. Russia has fifty millions less to export; India sixty per cent less; Australia has to import ten millions against an export of nine last year. Bad crops from Argentina; probable bad condition of United States winter wheat plant; twenty millions less in elevators than last year in the United States and estimated seventy millions less in farmers' hands. EIGHTY CENT WHEAT FOR JULY SEEMS SURE. CORN at 30 or 31 cents means TEN CENTS PROFIT. Farmers are cribbing and intending to curtail acreage. OATS very safe but corn as safe with a greater expectation of profit. MEAT PORK is again under \$10 for JULY. BUY IT and make \$3 per bush on it. ACT QUICK. Write for particulars.

Direct wire to old reliable and regular houses.

### Shake the Bottle

Is too often placed upon prescriptions sent out by druggists to cover up their ignorance or carelessness.

There is a way of combining drugs that makes an elegant and palatable medicine, sure in its remedial effect.

Or they may be thrown together in a careless, haphazard way, and only a dirty, muddy mixture, good for nothing, is the result. There are to be sure some prescriptions that cannot be so compounded as not to need a "shake" label, but we use the utmost care in compounding all prescriptions left with us and endeavor to make the most elegant and agreeable preparations possible, while fully carrying out the physician's directions. We make our prices as low as possible and always charge you nothing extra for the "know how."
